A candidate who offers a program of the people, for the people, and by the people.

A Statement by Talbot Feild, Jr.

Going up and down every street in our city during the past two months, in an effort to see each of you personally to solicit your vote, has been an education within itself. I have verified that formost in your minds and hearts is a sincere desire that additional industry be attracted to Hope. But, I have also learned that the sanitation of our city is a big concern of most every-

Second: our big city sewer mains are made of clay tile and were inon North Elm Street two blocks are in bad shape. Considerable trouble is being experienced on West 5th Street in the 200th block and further on

Third: our main sewer lines are buried in the ground anywhere from Now we all know that in order to have a good sewage system we must have a good water system. Greater progress has been and is being made in improving our water system. Many of you deserve credit for these im-

The city of Hope has 10 regular employees in its water and sewer department. Our 5 City water wells produce 1,500,000 gallons of water a day. Consumption is averaging about 1,000,000 gallons per day and has reached at times about 1,200,000 gallons. Our two city reservoirs have a capacity of 600,000 gallons of water. Many of you have noticed so far this year that much work is in progress up and down many of our streets. Old

For instance, a 12-inch line has replaced a 4-inch line from Division line has replaced a 2-inch water line on North Laurel, East 8th and Dewey From West 5th to 4th a 6-inch water line has been laid and connected with two blocks of 6-inch and two blocks of 8-inch pipe have replaced a 3/4-inch laid for 7 blocks out from Schooley Store in Ward IV. This is replacing a

disposal is concerned, and real progress in improvements to our water system. to correct the present inadequate and often exposed drainage of surface water within and from our City.

This is your city. These facts are important to you. As Mayor of Hope I pledge you that my program will be to correct the foregoing deficiencies which have been reviewed and to continue the improvements which are already scheduled for our water system, I sincerely solicit the support and help of every citizen.

Allowance Day Used To Be Everyday

Frankly, I was worried because Junior had no appreciation for the value of money. He thought it grew on trees. He always came to me for "just a little extra". One day it was for school activities. The next day it was a movie. And so it went. This constant doling out was giving him wrong ideas. And, it was

also denying him the thrill of earning his own money—and buying That's why I encouraged him to get a newspaper route. That's about the only job left these days that gives a boy well-rounded experience in operating a business—buying at wholesale, selling at retail, making

collections and building up profits by good sales and service.

shing his big draw back protested. Every man of them a mixture of Oxygen and nitfogen, bank of the Han River.

Now Junior's A Newspaperboy ... What a change! He now appreciates the value of money because he works for it. He doesn't spend his own money foolishly. Before he buys anything now, he takes time to think about the cost. (And the

allowance which he used to spend so freely is going into his College Fund.) Junior is also learning how to meet and get along with all kinds of people and how to put into practice what he's learn-

I've got a son to be proud of. A son who already has experience in free enterprise and the American Way of Life. I'm confident that he'll be ready to meet the everyday challenges of his first full-time job.

> WARD & SON DRUGGIST

TALBOT FEILD, JR.

The People's Candidate

A candidate who offers a program of the people, for the people, and by the people.

A Statement by Talbot Feild, Jr.

Going up and down every street in our City during the past 2½ months, in an effort to see each of you personally to solicit your vote, has among other things taught me a great deal about our City. As I told you yesterday I have verified that foremost in your minds and hearts is a sincere desire that additional industry be attracted to Hope. But, I have also learned from observation and from you that the streets and alleys of Hope are a major problem. These facts have been brought to my attention.

First: our Street Department is operated by approximately 11 employees. Second: it is utilizing to good advantage the following equipment: 2—1½ ton dump trucks with a capacity of 4 yards each which are

used mostly to haul gravel and asphalt preparations; A 13 ton flat bed truck for use in cleaning the streets and alleys; A small grader for work in the alleys and at the cemetery;

A medium sized catapiller motor patrol for grading streets, cutting ditches, and mixing asphalt; medium sized tractor mowing machine;

A flushing machine which is used at night on the downtown streets as well as in fire fighting; and

A medium sized gravel loading machine, presently located at a gravel pit near Old Lewisville where the best grade of clay and sand gravel is obtained for our City as 10c per yard. This machine loads one yard at a time.

Third: it is estimated that our Street Department is responsible for approximately 60 miles of streets and alleys and during the last $3\frac{1}{2}$ years approximately 4½ miles of new blacktop pavement has been laid in our City. have walked on much of it and inspected it. The asphalt pavement consists of a blade mix — blacktop and gravel — a two inch wearing surface on a 6-inch gravel compacted base. These 4½ miles have been put down by one of two methods. Either the adjoining property owners have formed an improvement district or they have paid cash. When cash was paid a substantial saving was realized. Regardless of the method employed a real bargain was realized for the upkeep and repair of those streets has become the sole obligation and responsibility of the city.

Fourth: during the last several years practically all gravel streets in our city have been regraveled and all dirt streets have been graveled. One of the most recent dirt streets that has been graveled is a new street near the Old George Dodd home over in Ward 1 that is about 4 blocks long. One block was graveled last winter and the remaining three blocks are scheduled for graveling this year. In our entire City only approximately 12 blocks are now in need of graveling. Not many more are in need of regraveling.

Fifth: the Street Department is also responsible for keeping our storm sewers open and repaired so that rain water can be carried away. This within itself is a tremendous undertaking.

Sixth: approximately one-half of the Department's time is now required for the patching and sealing of our asphalt and concrete streets. On 6th Street a couple of blocks were sealed last fall and so was a block on South Elm about the 13 hundred block. Sealing should be done about once every four years to prevent our streets from cracking and deteriorating. To seal a street, if you have ever watched, first the patch is applied, then is spread 3/10th of rather heavy asphalt to the sq. yard, and then this is covered with pea grayel to the extent of 20 to 30 pounds to the sq. yard. Then it is rolled and that results in one seal good for about 4 years. To seal about 12 ordinary blocks on South Elm, for example, would cost the City about \$75 per block over and above the regular expenditures of our Street Department.

Paved streets maintained in good condition and graveled alleys are most important if we are to live in a progressive City. Much work is needed

This is your City. These facts are important to you.

As Mayor of Hope I pledge you that my program will be to correct the foregoing deficiencies which have been reviewed, and to continue the improvements being made to the streets of our City. We must strive to complete the paying of all City streets as soon as possible. I sincerely solicit the support and help of every citizen.

Here it is, just past July, and what do you think has happened?

Buick popularity has broken every past full-

At the beginning of this week, Buick production passed 600,000 cars for the 1955 model year.

That is over 155,000 more automobiles than the

full model year of 1954 - when we captured

It is more than 11,000 higher than the full model

year of 1950 - when the automobile industry

had its greatest year, and Buick established an

all-time record that stood unchallenged until

It is almost a quarter of a million more automo-

biles than the full model year of 1941—which

was the greatest prewar record Buick ever

nother words, there has never been any-

thing before like 1955 in Buick history - when

today Buick is building over three cars

That's the gospel truth. And Buick, of course,

has had many great years before.

third place in total national sales.
